

Rising 6th Graders

Summer Math Practice

All middle school students will use IXL (www.ixl.com) to help keep their math brains working strong throughout the summer. This site allows students to practice a variety of math skills while providing feedback and instructional guidelines (if you take the time to read them). Mrs. Pierson will be checking-on you over the summer!

Current middle school students already have their login information. If you have forgotten it, you can e-mail Mrs. Pierson at apierson@stmaryschoolri.org.

Students entering 6th grade should focus on the following sections of FIFTH grade math for review:

A.1-A.7	G.1-G.11	M.1-M.10
B.1-B.8	H.1-H.4	N.1-N.6
C.1-C.9	I.1-I.6	O.3
C.13-C.16	K.1-K.11	P.1-P.5
D.1-D.12	L.1-L.20	

If you want to preview some new skills, you can check-out the following sections of SIXTH grade math:

D.1	M.1-M.2	HH.1
E.3	FF.1-FF.2	

In addition to using IXL, you should continue to practice your multiplication facts. Knowing these will really help you feel more comfortable working with fractions!
